

"HEIRLOOM QUALITY"

AL MAR KNIVES was founded upon the belief that quality and performance need not be compromised in a production knife. During our years in business AL MAR KNIVES has established a very special niche in the international world of cutlery. This has been achieved by dedicating ourselves to our products and to a level of quality that cannot be surpassed.

Choosing the right knife, whether for self-defense or sport, can make all the difference when the time comes to use it. This is why AL MAR KNIVES offers a wide variety of innovative designs that present a quiet but powerful statement.

AL MAR KNIVES are designed for those select individuals who refuse to follow the crowd. We offer pride of ownership in knives that have proven themselves time and time again. This is why leading international law enforcement, military, and special operations organizations rely on products that bear the AMK logo. We produce high quality products that meet real needs and provide lasting value.

A special thank you to all of our loyal dealers and customers, whose recognition of our product have made our continued success possible.

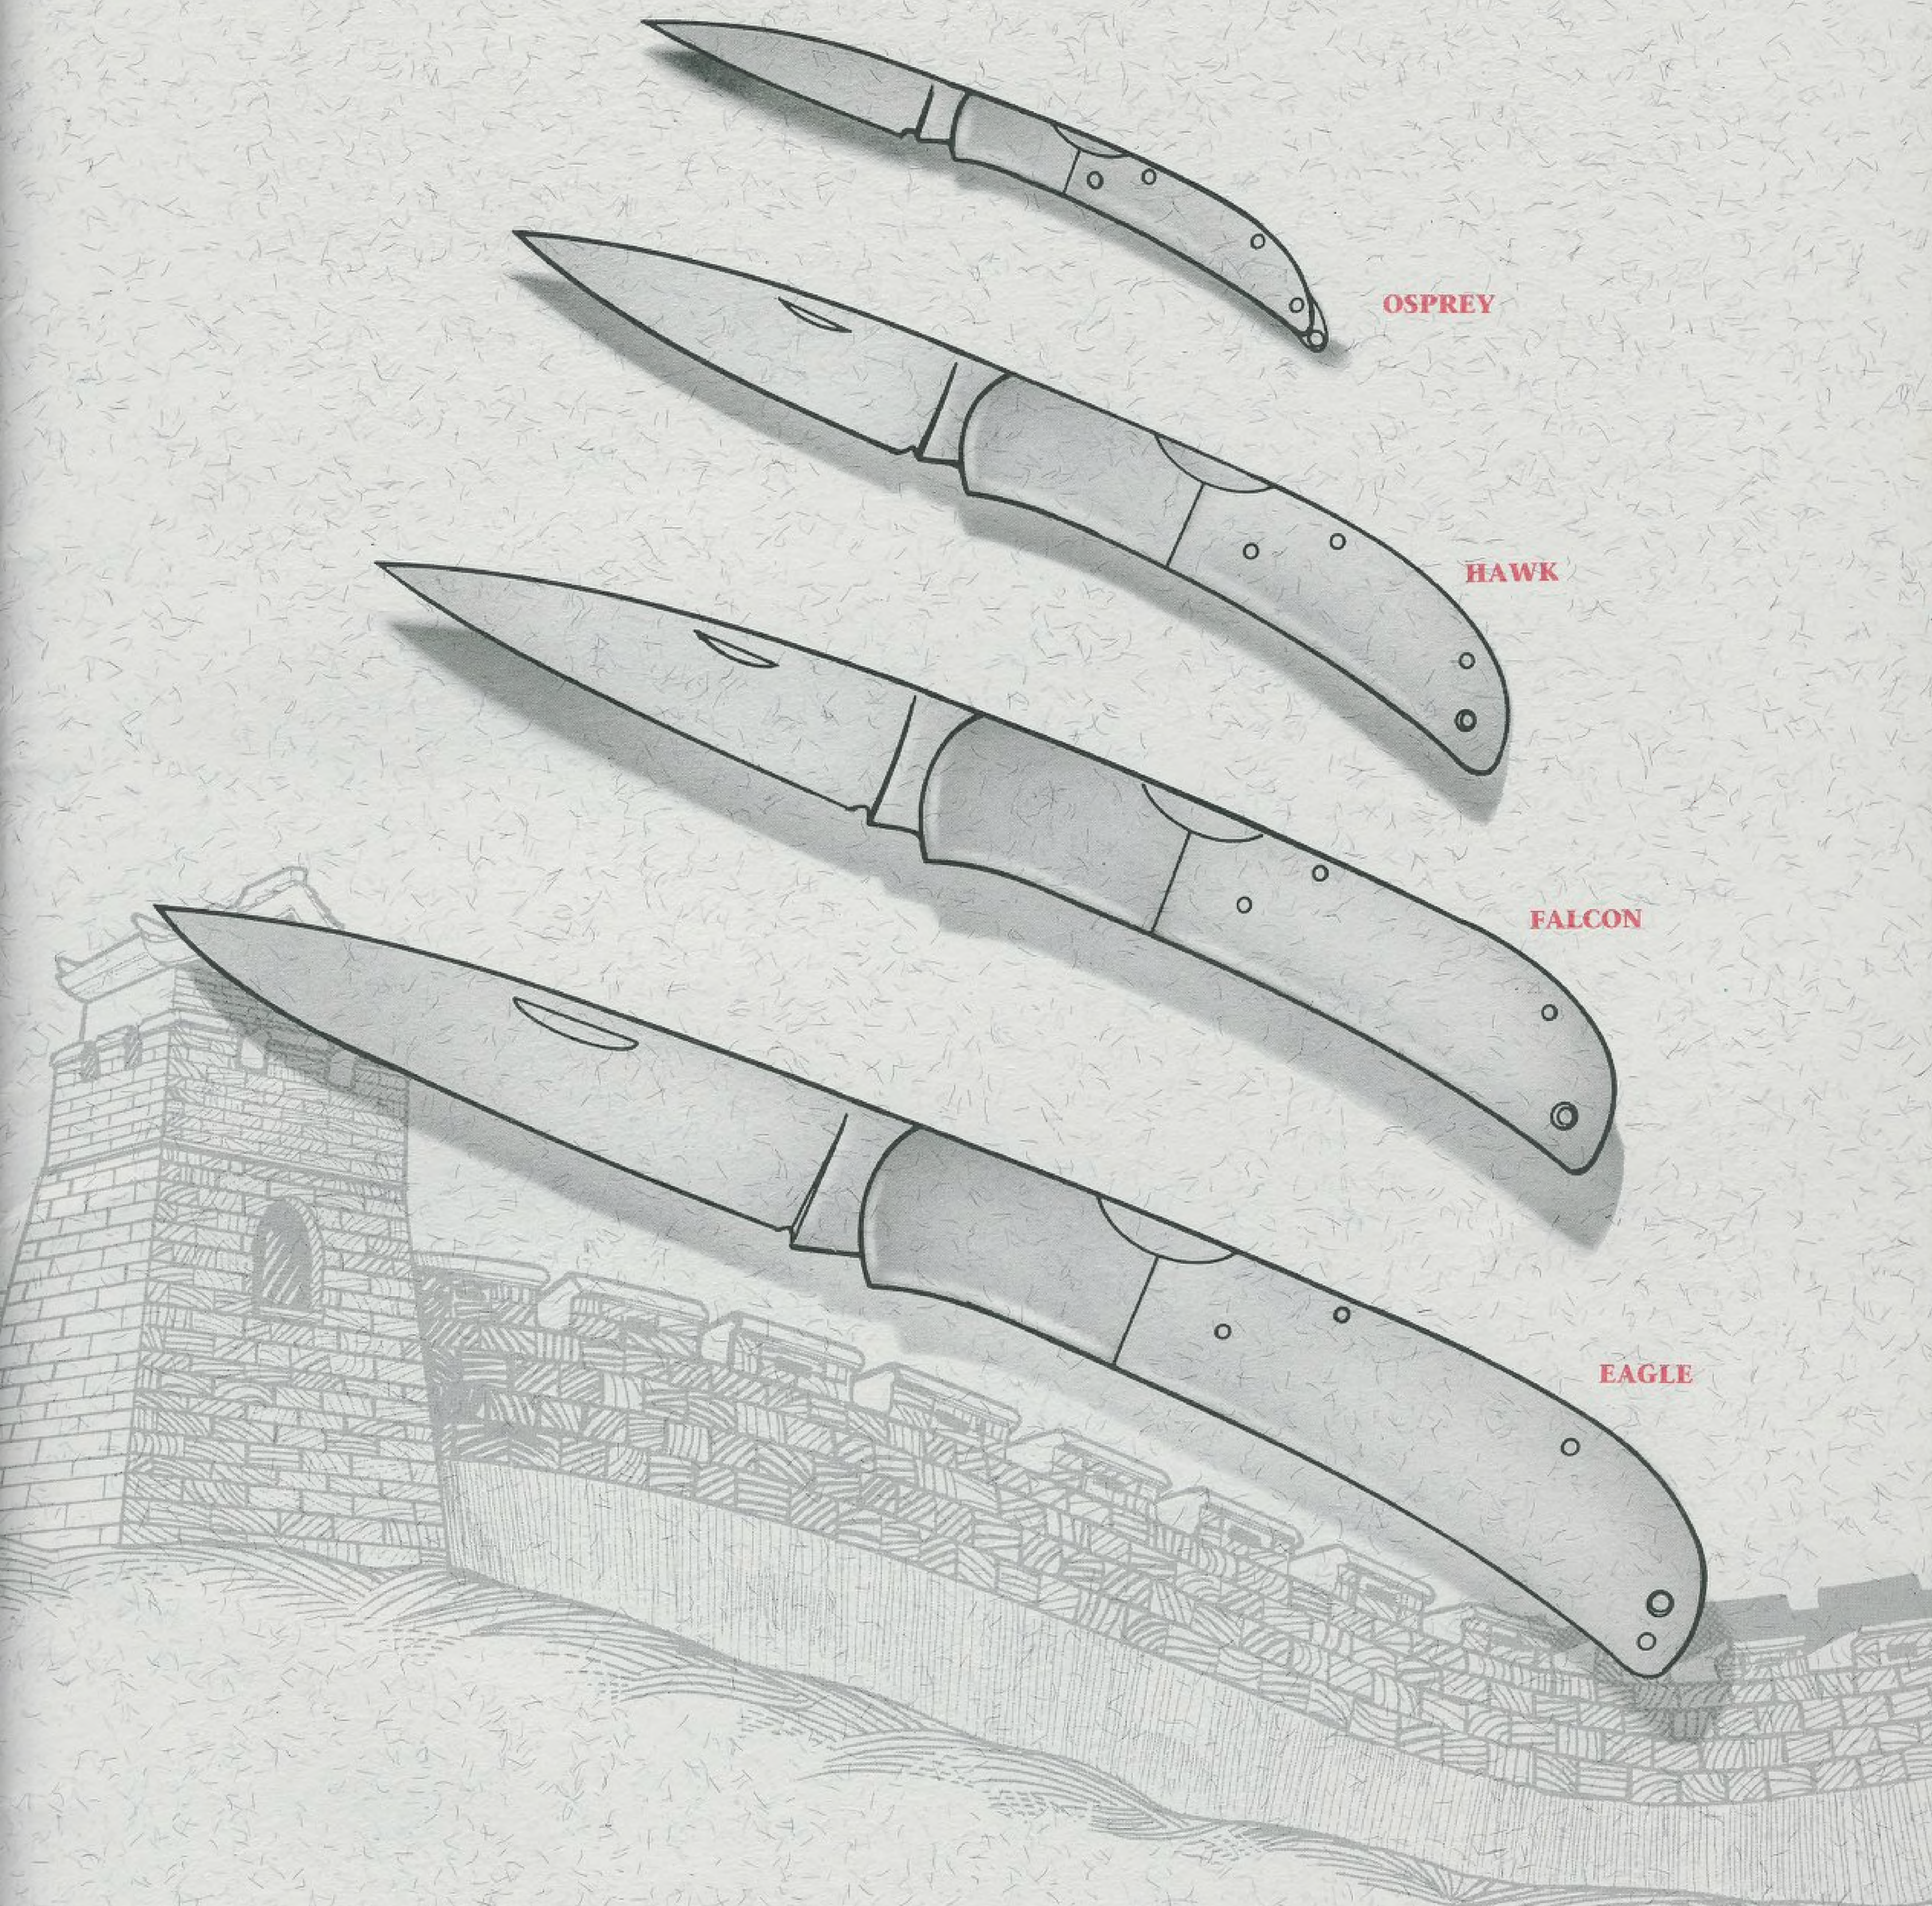

Sincerely,

AL MAR KNIVES

AL MAR
President
